

Would you like your children to learn about Enterprise and become Young Entrepreneurs whilst supporting charity and learning about being green?

What is it?

Time for a Change™ (TFAC) is an innovative and inspirational primary programme aimed at Years 5 and 6 in which children form a business to make a product to sell or provide a service to deliver at a selling day organised by the school.

Aims:

- To give children a basic understanding of business principles and practices
- To gain active involvement from local businesses
- To build on children's enterprise knowledge and skills
- To raise awareness of issues such as recycling and challenges faced by people locally and globally
- To raise awareness of different jobs and careers
- To build teamwork, communication and raise aspirations
- To support the National Curriculum
- To support transition from KS2 to KS3

The Time for a Change™ Primary Enterprise Programme

Format

There are two distinct pathways for you to choose from:

1 'Go Global'

Can be linked to international partnership schools and the children choose an international charity to support.

2 'Go Local'

Children investigate their local community and associated careers whilst choosing a UK charity to support.

Both pathways culminate in a fun and educational 'Dragons' Den' style presentation pitched to employers from your local area. Children take part in a graduation ceremony and receive certificates and a memento of the programme.

Benefits

Whichever pathway you choose, children will learn about teamwork, business skills, confidence and environmental issues.

'Go Global' benefits:

- Links with international schools
- In supporting international charities, children learn about social enterprise
- Learn all about recycling

'Go Local' benefits:

- Links with local employers and the community
- Start to embed careers / LMI information early
- Develop team working skills

Curriculum Benefits

Enabling the development of an enterprise and entrepreneurial culture in school, TFAC can contribute to a smooth transition and curriculum continuity from KS2-3.

It helps you to ensure all Key Stages are involved in work related learning which develops the knowledge, skills and understanding that are useful in work and prepares children for the opportunities, responsibilities and experiences of later life.

Children will learn a variety of skills through hands on learning whilst gaining new, real world experiences. They will be able to build on numerous subject areas throughout Time for a Change™ including, literacy, numeracy, ICT, science and art to name a few.

A full resource pack is provided to guide you through TFAC including lesson plan ideas, linking in with the national curriculum.

Why not enhance your experience with a Careers Fair? We also offer an employer links service for primary schools. **Please contact us to find out more.**
